

# Win Your Country

## Game Show

**Everyone says they love their country.  
But how much do they really know about it?**

### Synopsis

**Win Your Country!** is the ultimate studio based quiz show where contestants win big if they can prove they *really* know their country.

Based on the original hit format, **Win Romania!**, which tripled the channel share in Romania in its nightly primetime slot on TVR 2. Now with over 450 episodes and entering its 10th season, **Win Your Country** is still going stronger than ever!

Battling it out state by state, region by region, or city by city, players compete over three intense rounds to prove they know their country. And it's not just about geography, players will need to know sports, culture, science, entertainment and even current events to save them from being eliminated.

Each contestant starts with a chosen territory (state, province, city) and must "conquer" neighbouring regions by answering a series of questions about that specific territory. Only then will they be able to make it to the next level where a cat-and-mouse game ensues and the remaining opponents try to reach each other's territory first, leaving just one to battle for the prize money in the final round.

Win Your Country! is a tension packed quiz show that gives audiences a chance to play along and test their own knowledge and patriotism of the place they call home. **You say you love your country? Prove it!**
